

Northern Rivers Catchment Action Plan Community Information Sessions, June 2012

The new Catchment Action Plan for the Northern Rivers (CAP2) will set priorities for investment in natural resource management projects over the next decade, from Port Macquarie to Tweed Heads and west to the New England Tablelands.

Residents and landowners are invited to find out more at a series of eighteen community information sessions being held across the region during June.

At the workshops, staff from the Northern Rivers Catchment Management Authority (NRCMA) will present a Discussion Paper on 'New Directions for CAP2' and explain how you can have your say.

Whether you enjoy fishing or bird watching, run a farm or an eco-tourism business - if you've got an opinion about managing the local environment, this event is for you.
