

# Considerations for planting for coastal sites— What goes where?

## Community Nursery Workshop

In this Workshop we invite you into the Landcare Community nursery to take a look at some of the key species used in restoration and enhancement plantings on coastal bush regeneration sites. Participants will learn about:

- The main vegetation communities or coastal habitats we have in the region
- When to consider planting
- Social and environmental values of assisted restoration.
- Which species should be planted where
- Function of certain species in their preferred habitat
- How to ensure a successful planting
- Plant id tips
- Propagation

**When: Wednesday 27th March 2019**

**Where: Coffs Harbour Regional Landcare Community Nursery  
Newman St, Woolgoolga (see over for map)**

**Time: 10am –12pm**

**Cost: Free**

**Light refreshments provided**

**Register by: Monday 25th March to Coffs Harbour Regional Landcare on 6651 1308 or  
via website: [coffsharbourlandcare.org.au](http://coffsharbourlandcare.org.au)**

# Considerations for species selection and planting for coastal sites—What goes where?

## Community Nursery Workshop

### Directions to Nursery, Newman St, Woolgoolga

Turn east into Beach St. Turn left at the Diggers RSL (helicopter in carpark), then swing around to the right – the Art Gallery is on your left. Follow around past High School Ag plot. Just before you reach Sunset Caravan Park turn left into the grassy lane. Landcare sign is on the fence. Continue along, nursery is on left.

**Directions to CHRL Nursery**  
Turn east into Beach Street, Woolgoolga
